

All resources I use to make this website:

- Space Background Pixel Arts Pack:

(I've just taken a demo pack by free for testing my background images)

<https://norma-2d.itch.io/space-backgrounds-pack>

-Pixel Art Wallpaper Pack:

(All pixel art that I use has been registered by me to use or is provided for free at the link below.)

- Remove Background:

<https://www.remove.bg/>

- To change the page PDF to be code QR:

<https://vi.qr-code-generator.com/>

- Most important support to me is **W3school:**

<https://www.w3schools.com/html/default.asp>

(Almost methods in HTML-CSS-JavaScript that I've learned in W3school)

-jQuery JavaScript Library v3.6.0:

<https://jquery.com/>

<https://pagination.js.org/>

- And so many suggestion from the tutorials Portfolio Website in YouTube, but I didn't use the React.js for this website.

Have a nice time :)
